

Change Summary  
Revise IRD between ECS and V0 System  
CCR 97-0771A

Change	Location	Explanation
Correct document title	Title pages	Title defines this as IRD between EOSDIS Project and V0, but the Abstract and Introduction and content clearly define it as the IRD between EOSDIS Core System and V0
Delete Req V0-0310	Table A-1 - Requirements Traceability	Req V0-0310 was deleted from the ECS CDRL before it was baselined by ESDIS. This entry is an artifact.
Remove mention that CIESIN SEDAC will <i>eventually</i> be a requirement	Section 1.2, last paragraph, Section 3.3.2, paragraph b, Section 6, Paragraph 1	SEDAC <i>is</i> a requirement now
Correct title of F&PRS	Section 1.3. paragraph 1	self-explanatory
Documentation references	Section 2, Section 3.2.2	Update document references. Remove references to Version 1 Data Migration Plan (obsolete)
Remove MSFC DAAC	Figure 3-1, Section 3.3.2b7, Figure 4-2, Abbreviations & Acronyms	MSFC no longer a DAAC
Networks nomenclature revised.	Figure 3-1, Section 3.3.1, first para. Sections 3.2.2a, c. Figure 4-2, Table 4-1. Also Abbreviations & Acronyms	Replace Ecom by EBnet. ESN now means ECS Site Network. EOSDIS Science Network now NASA Science Internet. Update Abbreviations & Acronyms definitions.
Flows 21 and 22 were incorrectly cited as without interfaces	Section 4.1, paragraph 1	Product Results interfaces do exist for 21 and 22 (artifact from previous document change)
Remove flows 1-4, user authentication	Section 4.1, paragraph 1, Section 4.1.2, Section 4.1.4, paragraph 2, Figures 4-1, 4-3, 4-4, Section 4.2, Table 4-1, Section 5.1.2, Table A-1	User authentication information is embedded in ODL message component of data flows as documented in ECS-V0 ICD
Discussion of advertising information, metadata, dependent valids misleading.	Section 4.1.2, Table 4-1	Removed confusing flow descriptions from first para of Section 4.1.2. All this will be addressed in detail in ICD revision now in process. In table, clarified that Advertising Information flow includes dependent valids
Change V1 to ECS	Section 4.5, paragraph 4	V1 is specifically a Release A reference
Change section heading for 5.1.6 from Ingest Requirements to DAAC Interface Requirements	p. 5-3, Section 5.1.6	CCR CCR 505-41-11-003 change to heading had not been made. Note: Other changes not on that CCR appear to have been made. No revision of that CCR exists.
Remove product delivery status	p. 4-7, Section 4.4.2, end of last	At end of Section 4.1.2 it is

<b>Change</b>	<b>Location</b>	<b>Explanation</b>
interface reference	paragraph	stated that this interface will not exist. Flows 21 and 22 are Product Results, not Product Status.
Remove reference to ECS Release A client	Section 4.4.3	
Advertising Information flow elaboration	Figure 4-1	Clarify that Advertising Information flow includes dependent valids
Misdirected flow arrows	Figure 4-4	Flows for Inventory search request and results were shown in same direction; also, flows for Guide search request and results. Directory Search request and results flows are reversed.
